

Best Practice-1

Title of Practice

Financial aid to meritorious and indigent students.

1. Goal

Despite the fact that the number of women participating in higher education has increased dramatically since independence the percentage of women students from low income families is substantially lower due to great discrimination and financial restraints these individuals require financial support. Financial assistance needs to be provided to these students to enable them to complete higher education as once educated women can help to improve the quality of life at home and in the workplace as well as outside. Women can be empowered through encouraging and promoting their education they can be empowered for a better future.

2. The Context

The majority of our students come from economical disadvantage background personal interaction with student and examination of dropout statistics have showed that familiar and financial limitation prohibit and lead to mind courses dropout it was a observed that providing financial assistance to them would enable them to seek higher education as a result it was decided to guarantee funds to provide financial assistance in the form of scholarship. Aside from financial help students required other basis things such as- medical care . a number of initiatives have been established to fulfill the demand of students.

3. The Practice

Our admistration is committed to inclusive education and works hard to acquire funds from philanthropist in order to keep these program going .the following are the program that have been launched –

- Scholarship and other financial aid are available for students. College Scholarship is in the form of aid that student pay for their education. As the fees of such courses scholarships are awarded to students who are unable to pay the fees.

Besides Scholarships certain relaxation are also provided on the following points –

- 50% relaxation in tuition fee for the students who have secured 90% or above marks in their gradation for pg admission.
- 50% relaxation in tuition fee for the wards of martyrs and 25% for those whose parents are in military or defiance services.
- **Medical aid**- Under the scheme , students are provided free insurance under ‘United India Insurance Company . As per the policy, the sum insured for each students Rs. 1,00,000 /- in the case of accidental death or permanent total disablement resulting in inability to work.

4. Evidence of success

Number of students avail the scholarship and other financial aid facility per year . The majority of the students who are completed their courses are now well - positioned in life, with a higher standard of living.

5. Problem encountered

It is tough to raise finances to continue these programmes. The trust works really hard to raise funds.

Best Practice - 2

Title of Practice

Extension Activities based in the community to improve Socio Awareness and Quality Environment.

Goal-

- To make the environment as eco- friendly as feasible.
- To make Students and society aware of the bad effect of polythene bags on environment, human beings and animal and educate them about Social responsibility.
- To provide knowledge about how it has become a need of an hour for them to understand the importance of tree plantation and also make students recognise the significance of waste and water management.

The Context

- To educate them about the ban on plastic, the importance of keeping the environment clean and healthy.
- To spread awareness among students for planting trees and manage waste and water.
- Creating a Sustainable environment.
- To closely Supervise all student activities with many faculty and encourage them to do more social services.

The Practice-

To carry out the programme the University recommended that each faculty member participate in at least one community service and one extension engagement with students of each academic year in addition to faculty extension activities, participated in community service and extension initiatives. In this system the student come up with brilliant creative head ideas and each one is considered to participate as they are all responsible for the change that we want to bring to the society.

Evidence of success-

The out reach was considered to be a grand success as it was found that the students and energy aligned with the faculty in helping the society whenever the opportunity was given to them. The 'Eco Club' of the college organized various activities based on tree plantation, avoid plastic bags, Water and Waste management etc.

Efforts for clear and green campus are being made through 'Eco Club Rallies'. To support the nation wide cleanliness drive, NSS unit under 'Eco Club' also contributed to spread awareness about "Swachh Bharat Abhiyan" in nearby places in with students full of enthusiasm.

Problem encountered

The approach was successfully implemented, and students improved their knowledge, but there were few factors that slowed the progress.

These factors include-

- Due to the regular Commencement of the classes , it is difficult to involve students for these type of social activities specially in between or after the classes. So the college cannot conduct less activities on regular basis.
- For the sake of the safety and security of the female students, parents and staff members not allow the students to go outside independently for the field work as awareness for the various campaign like not to use plastic bags, cleanliness drives etc. The faculty member have to accompany the students for such activities while managing their hectic schedule of the classes which is again a difficult task to manage. Looking upto the schedules of the faculty members, They organize these activities during the time when they have comparatively less restless schedules.
